BILBAO 1999  DESIGN ETXEA

FALL WINTER 2026 COLLECTION

Lotura

*Basque. Link.
Rooted in the earth, guided by craft.*

LOTURA is the invisible link between ancestral knowledge and human interaction with nature. It is a constant dialogue between our roots and the world we inhabit; between who we were and who we strive to become.

This collection is born out of respect for the Earth and for the people who work the land by hand. It is a tribute to craftsmanship and to a legacy that evolves while retaining its core values. Braiding has always symbolised patience and attention to detail. It is a traditional technique that we have brought into the present with this collection.

Sokatira is a traditional Basque game that brings together strength, strategy, and community spirit. Played by teams pulling on opposite ends of a thick rope, it's a celebration of teamwork, coordination, and local culture. Often featured in Basque festivals, sokatira is a symbol of unity and friendly competition

LOZUKA

The art of basketry

There is a quiet poetry in the way hands move when weaving a basket — a rhythm passed down through generations, connecting us to the land, the fibers, and the stories they carry. This season, we draw inspiration from that timeless gesture.

We celebrate the imperfect beauty of the handmade — the subtle irregularities that remind us that true artistry lives in the process. These crafted details become our tribute to the people who continue to shape with care, to create with intention, to weave not only objects, but meaning.

SKFK Artist Gallery, a place where ideas connect, stories unfold and pieces are born grounded in identity, values, and culture.

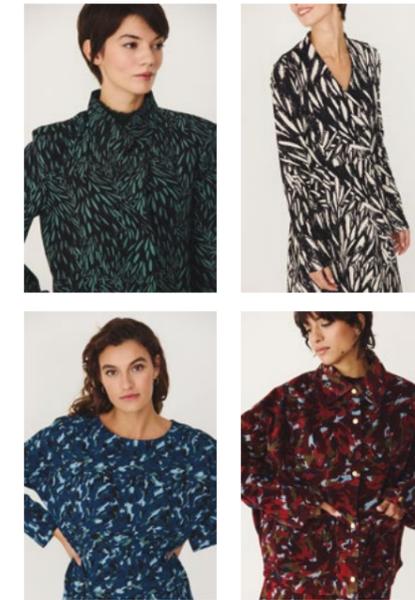

For us, fashion has never been just a product. It's a creative discipline, a language, and a form of expression. Art and design are inseparable: together, they shape the way we think, create, and communicate through clothing.

Our prints are born from the dialogue between past and present. They reinterpret traditional textures, gestures, and patterns, translating them into a contemporary language. Every line, every shape, is a reminder that what connects us endures through time.

SKFK Design Etxea

Lurra

This print takes root in the textures of the earth. It speaks of patience and permanence, of hands that sow and harvest—a grounded rhythm, born from the pulse of nature itself.

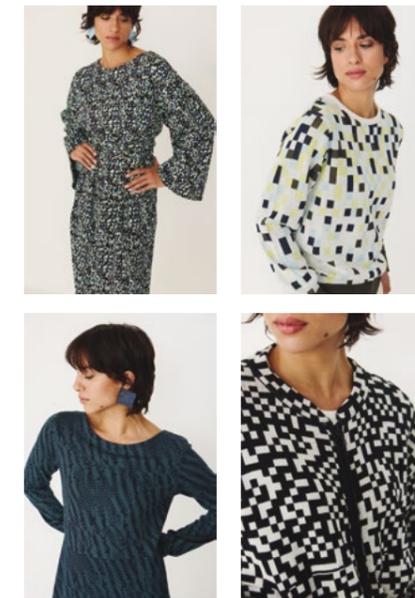

Kodea

Inspired by nature's invisible architecture and hidden structures, it turns graphic forms into organic balance — a visual code that links the geometric and the natural.

Pixel

A nod to the meeting point between craft and code. This print reimagines digital fragments as organic forms — tiny modules that, together, create life. It speaks of balance between the human hand and technology, between nature's randomness and our urge to order it.

Saskigintza

This print celebrates craftsmanship. Fine, braided lines intertwine to form a contemporary geometry that pays homage to ancestral techniques. It reflects the slow beauty of making — where tradition meets transformation.

Grems

Grems brings raw energy and graphics to the collection. Musician, painter, and graffiti artist, his universe is bold, spontaneous, and deeply rooted in street culture. His work plays with the painting's skin — layering, cutting, rebuilding. In this collaboration, he brings his visual rhythm to wearable pieces, creating garments that pulse with raw energy and graphic tension.

@insta_grems

Martina Spetlova

Martina Spetlova, a London-based Czech designer, creates bold and timeless luxury pieces, highly identifiable by their bright colour patterns, unexpected juxtapositions and distinctive use of hand-woven leather. She constantly experiments with materials and their placement on the body, and these experiments serve as the starting point for new fabrics, artworks, or silhouettes.

@martinaspetlova

Jacques Bernar

Jacques Bernar explores the limits of painting, merging body, matter, and technology. Since his beginnings at the School of Fine Arts in Bordeaux and the Sorbonne in Paris, his work has evolved from bodily gestures and fluid painting to constant experimentation with unusual materials, reliefs, and supports. His practice, always hybrid, connects art and science, painting and nature, in a continuous search for transformation.

Connections through design

This season's theme comes to life through the small things — closures, seams, and fastenings that link one part to another. Each detail reflects the idea of connection: how elements meet, hold together, and create something whole.

New fabrics, made in 100% organic cotton

We've developed new organic cotton fabrics that are denser and warmer, perfect for colder weather. They keep the softness and breathability of cotton while adding extra comfort.

Every SKFK product is made from at least 70% organic, recycled, or natural materials.

If it's not possible to do it responsibly, we simply don't make it.

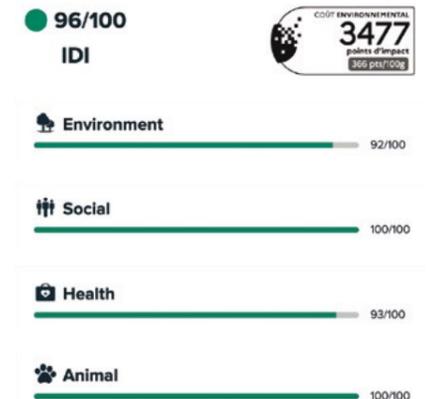

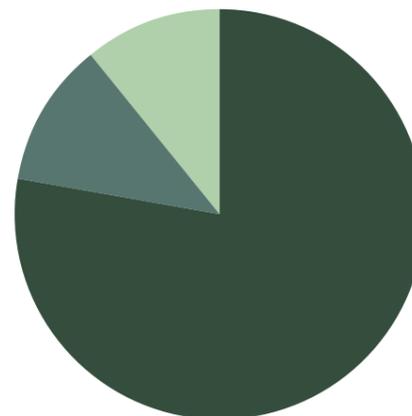

✓ Clear Fashion

Fashion should feel good and do good. Transparency is just the beginning. From raw materials to the final stitch, you can trace the journey, meet the makers, and understand the impact. Transparency empowers better choices: for you, for the people behind the clothes, and the planet.

The **Clear Fashion app** evaluates brands and their garments according to 150 scientific criteria grouped into four categories: environment, people, health, and animals.

80% of SKFK garments have a score from 80 to 100 in Clear Fashion

- 80 to 100 – 144 products, 77.8%
- 60 to 80 – 21 products, 11.4%
- 40 to 60 – 20 products, 10.8%

SKFK has opted for transparency by having this information verified by the independent third party Clear Fashion. Discover below the production conditions and the impact of this model.

100% SUSTAINABLE FIBERS

All the items in our collections are crafted to last. Here all the perks of each fiber and how to take care of your clothes and make them last as long as they were designed to.

Certified Organic Cotton

This fiber uses 91% less water and means cleaner air, better soil and better livelihoods for our farmers. This organic cotton is grown to have a low impact on the environment. This means no use of toxic fertilizers and pesticides and maintenance of soil fertility.

ABOUT THE FABRIC

Low environmental impact fabric. Produced without toxic substances. Less water consumption. Resistant and durable. Natural and breathable feel.

IT'S BETTER WHEN IT'S CERTIFIED

Our organic cotton is organic & Fairtrade® certified.

GOTS (Global Organic Textile Standard) certification means that the fibres are organic, the manufacturing processes are less polluting and the working conditions comply with international standards. An independent organization monitors the factories every year.

Fairtrade® is a way to conduct business that guarantees that farmers at the origin of our cotton are paid fairly; it also gives them subsidies for developing community projects.

TAKE CARE OF IT

1. Organic cotton can be machine or handwashed.
2. To avoid them from shrinking and keep them like the first day, wash 30°C.
3. Hang cotton out to dry, as dryers can make the piece shrink. It also saves energy ;)
4. As a recommendation, use natural soap.

WE WOULDN'T BE THE SAME WITHOUT THE PEOPLE WE WORK WITH

Since 2017, we work with Chetna, a farmer coalition from India. Environmentally, we create regenerative agriculture, promoting ecosystem resilience, genetic diversity of seeds, and reducing the water footprint.

On the social side, it reduces inequality in countries and assures living wages for small farmers, women empowerment, and food security.

Every time we use a Fairtrade® certified organic product, we are generating a social and environmental commitment.

"Organic" certified by Ecocert Greenlife F32600, license number: 127906 SKFK.

Fairtrade® means better conditions and opportunities for cotton producers in developing countries to invest in their businesses and communities for a sustainable future.

Recycled Cotton

Recycled cotton is considered one of the most sustainable textile fibers in the industry: it does not require the use of cultivated soil, large amounts of water for its manufacture, pesticides or herbicides. Chemicals are also not used in the manufacturing process.

ABOUT THE FABRIC

Recycled cotton is soft, breathable, and free of toxic and hypoallergenic products.

TAKE CARE OF IT

1. Air your clothes after wearing them, and only wash them when needed.
2. Hand wash it or machine wash at max 30°C.
3. Hang to dry.
4. As a recommendation, use natural soap.

Wool

These products are manufactured in Portugal and are certified by the Responsible Alpaca Standard. Alpaca wool stands out as a sustainable and ecological fibre, appreciated not only for its softness and warmth, but also for its minimal environmental impact. Native to the highlands of South America, especially Peru, alpacas have a very low impact on their ecosystems. Their padded feet do not damage the soil and they graze without uprooting grass, allowing fields to regenerate naturally.

ABOUT THE FABRIC

The wool is naturally insulating, hypoallergenic, and contains no lanolin, reducing the need for chemical cleaning processes. Alpaca wool is incredibly durable.

TAKE CARE OF IT

1. Air your clothes after wearing them, and only wash them when needed.
2. Hand wash it or machine wash at max 30°C.
3. Hang to dry.
4. As a recommendation, use natural soap.

Lenzing™ Ecovero™

LENZING™ ECOVERO™ is the responsible viscose. Not only do we save 50% on emissions and water, but it's also made of sustainable wood pulp. In two words: responsible production.

We use 100% FSC Certified Viscose, meaning natural wood fibres sourced from sustainably managed plantations, and transformed into cellulose fibres and again into cute clothes.

ABOUT THE FABRIC

It is a soft fabric against the skin. Fluid and light. Very cool fabric ideal for summer. High absorbency and breathability.

TAKE CARE OF IT

1. When washing, select gentle cycle with low spin and wash cold or below 30°C.
2. Remember to hang them in the air to dry, it's better for the Planet.
3. As a recommendation, use natural soap.

Tencel™ Modal & Lyocell

TENCEL™ Modal & Lyocell fibers are extracted from an environmentally responsible process. The fibers are certified as compostable and biodegradable, and thus can fully revert back to nature.

ABOUT THE FABRIC

Achieves vivid colours. With bright finishes. Very soft touch as if it were a second skin. Very fresh and with a lot of drape. Resistant and durable.

It's a cool and soft fabric. It has a great moisture absorption capacity.

TAKE CARE OF IT

1. When washing, select gentle cycle with low spin and wash cold or below 30°C.
2. Remember to hang them in the air to dry, it's better for the Planet.
3. As a recommendation, use natural soap.

Recycled Polyester

We choose recycled polyester, which uses less energy to make, diverts plastic from the sea or landfill, and makes for a supersoft feel. Instead of throwing them away, plastic bottles can be used to produce new clothes. These pieces are fluffy, durable and allow savings in production. Waste never looked so good!

ABOUT THE FABRIC

It is a fabric with a long wear resistance. Waterproof and flexible.

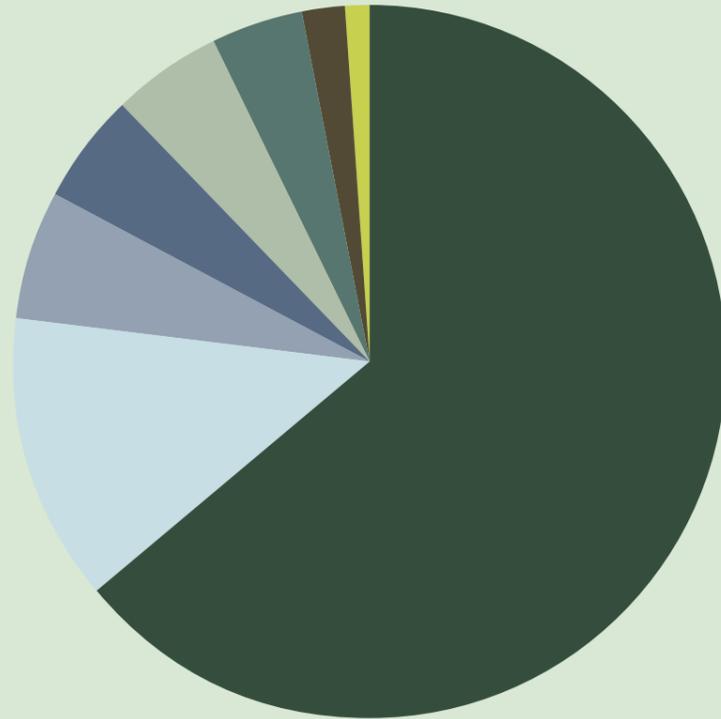

TAKE CARE OF IT

1. Air your clothes after wearing them, and only wash them when needed.
2. Hand wash it or machine wash at max 30°C.
3. Hang to dry.
4. As a recommendation, use natural soap.

FW26 collection by fiber

What we wear matters, and it all begins with the fiber. Our FW26 collection is made with carefully chosen, low-impact fibers reflecting our commitment to sustainability and durability. Each piece is designed to a slower way of dressing, rooted in respect for people and planet.

DROP 1

Summer
Sales

We design and release our collections in several drops throughout the season — smaller, thoughtful capsules that arrive at the right moment of the year. Each drop is carefully planned to match the seasonal rhythm: lighter fabrics and brighter tones as spring unfolds, warmer textures and deeper hues as autumn settles in. This way, our clothes feel right for the weather and for the moment you're living in.

DROP 2

*Autumn
Sales*

We design and release our collections in several drops throughout the season — smaller, thoughtful capsules that arrive at the right moment of the year. Each drop is carefully planned to match the seasonal rhythm: lighter fabrics and brighter tones as spring unfolds, warmer textures and deeper hues as autumn settles in. This way, our clothes feel right for the weather and for the moment you're living in.

DROP 3

Winter
Sales

We design and release our collections in several drops throughout the season — smaller, thoughtful capsules that arrive at the right moment of the year. Each drop is carefully planned to match the seasonal rhythm: lighter fabrics and brighter tones as spring unfolds, warmer textures and deeper hues as autumn settles in. This way, our clothes feel right for the weather and for the moment you're living in.

DRESSES

Draped or structured, our dresses explore geometry in motion. Clean cuts, precise seams, and fluid lines enhance natural movement while maintaining architectural balance. Every shape is designed to create a sense of form and ease.

SWEATERS

Knits become architectural. Playing with volume and tension, our sweaters explore structure through ribbing, paneling, and geometric stitching. Soft yarns bring warmth and shape to sculptural silhouettes.

LEATHER DESIGN PIECES

Leather is transformed into structures that transcend functionality through designs that explore lines, volumes, patterns, and geometry.

HOW TO CLEAN THE LEATHER

For daily cleaning of leather bags, a dry white cotton cloth is enough. Leather is delicate; in case you see a stain, avoid using any product and consult a specialized dry cleaner. When not in use, we recommend storing your leather bags in a protective cloth bag.

Layer in Merino Wool

Wrap yourself in pure Merino. Timeless dresses and matching gloves to complete a winter total look.

Merino Wool Certification

Our wool comes from farms certified to the Responsible Wool Standard (RWS), which ensures that the wool we use is sourced responsibly – with respect for both the animals and the land they graze on. By choosing RWS-certified wool, we support more sustainable farming practices and a more responsible textile industry.

ORGANIC COTTON GOODIES

Natural simplicity at its best. Organic cotton offers softness and breathability in pure form. Each piece balances function and comfort — an everyday essential made with care for people and planet.
